

Here's another little hat for a small relative or pet for instance...

# Make your own party hat for enhanced viewing pleasure of [WWW.DAPHNELOUTER.COM](http://WWW.DAPHNELOUTER.COM)

- ① Print this page onto a piece of paper or preferably card.
- ② Use a pair of scissors to cut out the hat along the black line.

Be sure to cut along the line to here!  
and here...

- ③ Use a craft knife to cut along this line. Please be careful when using craft knives! I'd hate to be responsible for any bloody mishaps.
- ④ Bend the hat into a cone shape and then fit the tab through the slit on the opposite side. Be aware this can be a bit fiddly. It will be worth it though!

- ⑤ Then secure the tab on the inside of the hat with glue or tape.

For extra 'hat-security' you can pierce two holes with a tack at the allocated \* points and loop through a piece of string or elastic.

HEY PRESTO!
